

AUTHORS COALITION SURVEY

For the past year, The National Writers Union has been working with many other author groups as part of the Authors Coalition to reclaim non-title specific royalties from photocopies made abroad. With your help, the National Writers Union last year has collected over \$300,000 that has allowed us to protect your copyright. Our share of the money collected for this coming year will be determined by the responses that we get from the genre survey below.

Please check the categories to which you belong, i.e., in which you qualify as a published author. (Please do not check more than one genre for one piece of work, i.e., the same book cannot qualify you as both a nonfiction author and a textbook author. For purposes of this survey, a "published" work means that (1) The work is reasonably capable of being photocopied abroad and is not self-published, or (2) If the work is self-published, that there have been no fewer than 1,000 copies sold, the work is commercially distributed outside the U.S., it is reasonably capable of being photocopied abroad. For purposes of this survey, author-subsidized publications shall be considered self-published. We know that the list is not inclusive, but all Coalition members must use this list because this is how foreign reprographic rights organizations conduct their surveys to determine what kinds of non-title specific works are being photocopied.
